GAH!

Fufu. So... what do you girls think?

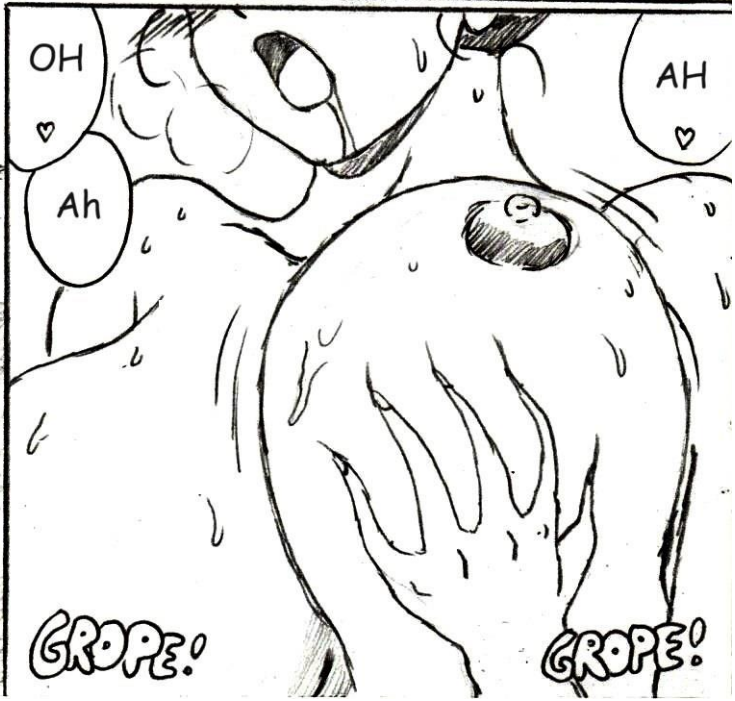

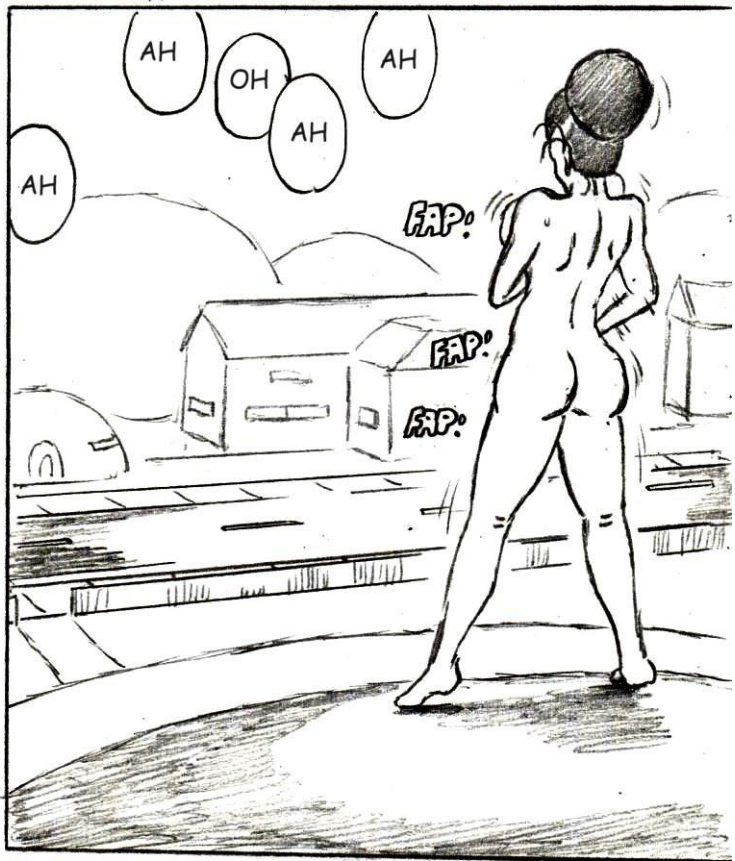

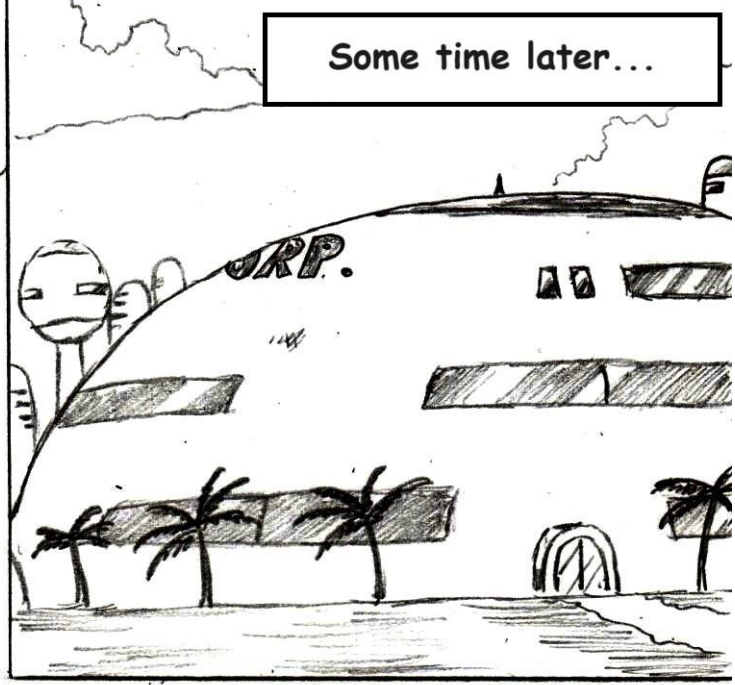

JIGGLE!

BYO!

FUP!

Oh, come now, Eighteen. Having a big, heavy dong added to your crotch as part of a standard upgrade package is perfectly normal for you by this point. As for you, Chi-Chi, well... I hope you have fun with your new toy. Let me know how it goes. :)

I... I know it's wrong to jerk my cock in such a place!

Someone is bound to see me!

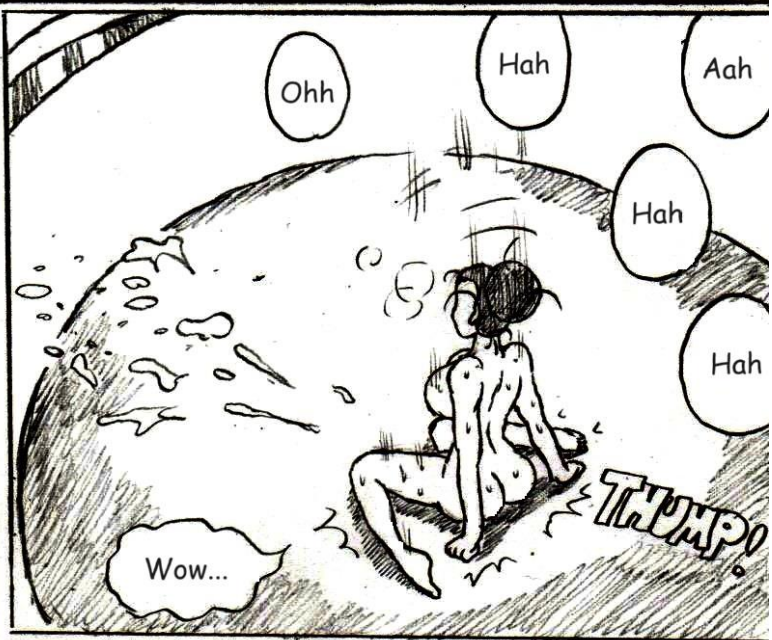

Beating off on the roof of Capsule Corp in the middle of the city.

Ahh... I wonder how long I'll be able to do this for? Android 21 said it was temporary...

How does Android 18 deal with having one? Perhaps... to make the most of this... I should try doing it in other public places...

That was so intense. I've... never cum that hard before.

The boys
are out...

Well... the male genitalia have finally taken full form since I took those pills from Vomi... balls and all.

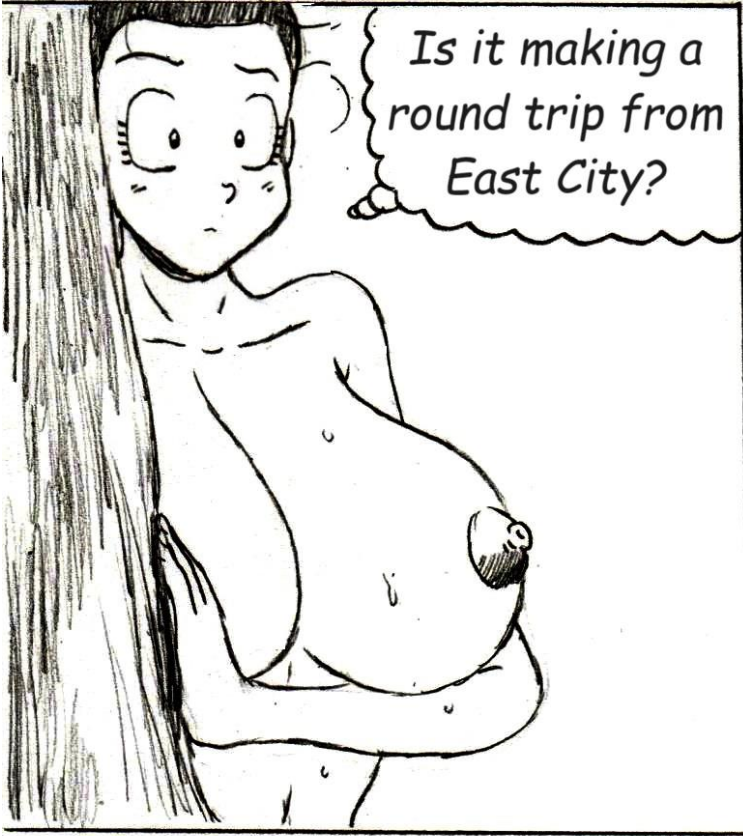

It's been a wild 24 hours, but it seems like I've finally calmed down... for now.

I really needed that.

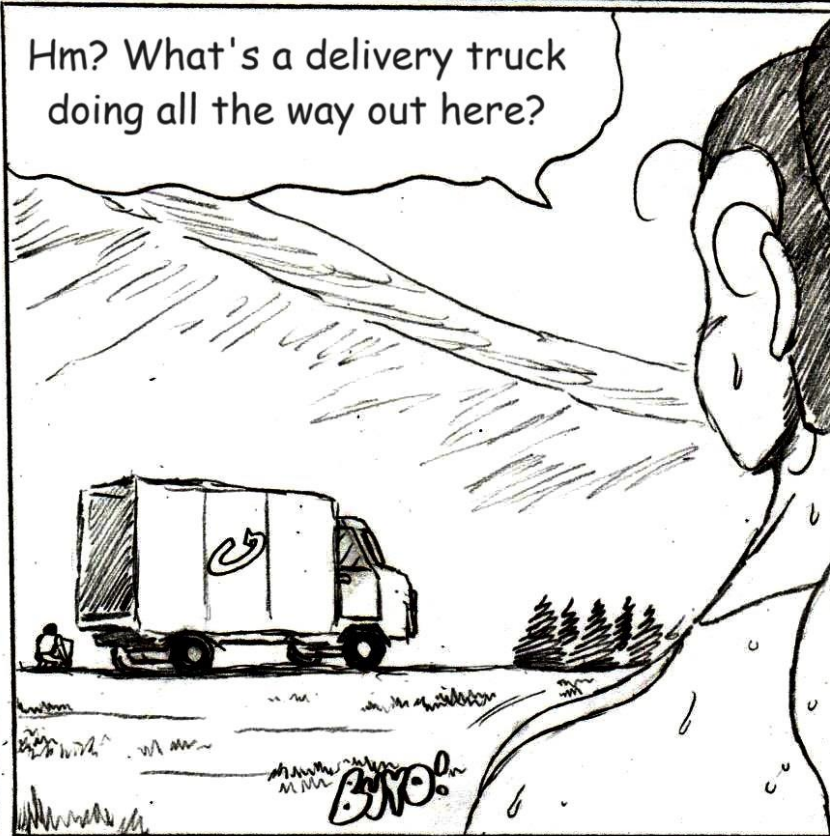

Haah... that was a great swim.

Guess I'd better go home and wait for these body-modifying pills to wear off. However much longer that will take... --

Is it making a round trip from East City?

Hm? What's a delivery truck doing all the way out here?

No, no... that's wrong... in the forest is one thing... but out in public... again?

I wonder... can I experience the same thrill as before...

THROB!

TWIST!

...at Capsule Corp?

In the city? Where there is a high chance I might get caught... or pointed out?

Oh no... m-my body is becoming hot... and I'm getting horny...

Hah
