[Narrator]

Emma just found it lying there. It was a small black plastic box with a button with a 2x on it, and one of those displays where digits are shown by 7 lines that are either lit or un-lit to make a number. Then, on the bottom there was a small insignia "T-T-a-G", but Emma didn't recognise it. She did however pick it up, curious to it's function. Was it a remote to something? There were 5 digits on the small display, the rightmost one reading the number 1.

[Emma]

Hmm... I wonder.

[Narrator]

Her curiosity getting the better of her, Emma pressed the button. The number changed to two.

[Emma] (**m* is a moan*)

Really? That's it? Wait... what's this feeling? *m* Huh? What was that? *m* Is the ground... getting lower? *m* or wait... I'm getting taller!? *m*

Emma then continued to rise up in the room, her body extending taller and taller as moans escaped her lips. Emma still wasn't quite sure what was happening to her, or why she was growing taller? All of a sudden her clothes were becoming very tight, and then spurt by spurt she out-grew them as they fell to the floor. Then, for seemingly no reason, Emma's growth stopped.

[Emma]

Woow, I got soo much taller! In fact...

[Narrator]

Emma ran over to her bedroom door-frame, where her height was marked on there. Looking at it, it was down by her waist.

[Emma]

So I got twice as tall! Wow! Wait, twice... huh...

[Narrator]

Emma now considered the device which she'd held onto. The 'times 2' on the button was beginning to make sense. And 1 times 2 was 2. The question is, what would happen if she pressed the button again? Would she get twice as tall yet again? She certainly wanted to find out. So, Emma quickly left the house to stand in the garden.

[Emma]

Here goes!

[Narrator]

And she pressed the button again. The two on the display changed to a 4, and the strange feeling Emma had felt before returned.

[Emma]

m Oh, here I go again *m* getting even bigger! *m* Going up and up and up *m* ehehe, this is pretty fun *m* I've always wanted to be taller! *m* but now I can get much much taller *m* I'm up to like the second floor of the house already! *m* Ooh, the feeling has stopped. I guess I'm twice as tall again?

[Narrator]

Emma looked down at the box again. Still in her hand, and still the same size? Well, not the same size, but it looked the same size to Emma as it had done to begin with, despite her being 4 times as large.

[Emma]

Well that's convenient! I don't need to worry about losing it then. Hmm, maybe I should have some fun at 4 times the size. Oooh, that's a fun idea!

[Narrator]

Emma walked round to the front of the house and sat down on the roof of the car. The metal sheet strained around her butt, but she hadn't broken it yet.

[Emma]

Now this'll be fun!

[Narrator]

She pressed the button again, the 4 changing to an 8.

[Emma]

m Yess, let's see how much *m* this car can take! *m*

[Emma]

[Narrator]

Emma continued to grow larger atop the car, and as her weight increased the car roof bent more and more. Her mass continued to climb as the car gave in, being crushed beneath her.

[Emma]

m Ahhh~ I crushed the whole car already *m* and I wonder how tall I am now? *m*

[Narrator]

Emma stood up to compare herself to the house, and the growth once again stopped.

[Emma]

Woow, I'm already taller than the house! And if I press the button again, I'm sure I'll be twice as tall again. Hmm...

[Narrator]

Emma considered for a moment. On the one hand this seemed like crossing a line. She was already ridiculously huge, but going above the lines of the houses would mean she would be visible from a long distance around. As you can tell by the fact she's standing outside nude at the size of a house, Emma doesn't have any shame.

[Emma]

Well, I may as well keep going! It'll be fun to get even bigger!

[Narrator]

With her mind made up, Emma pushed the button again. The on screen number now read 8, as her growth began again.

[Emma]

m Yes! Even bigger! *m* and these growth spurts seem to *m* be getting even stronger, too! *m* I'm growing like a meter now every time! *m* Ooh, it feels great, and watching *m* my roof shrink down and down *m* as I go up and up and up! *m* How exciting!

some more growth moans to go under narration

[Narrator]

Emma watched as her body continued to expand outwards and upwards. She was having lots of fun getting bigger, especially considering she'd never even imagined it possible. Perhaps she'd longed to be a little bit taller from time to time, whenever she'd been unable to reach something in a supermarket, but that was it. This was way beyond her ideas, yet she still loved the feeling of growing larger enough to keep her pressing the button. Her growth stopped once again as her waist rose above the roof of her house.

[Emma]

Hmm... I wonder what I can do now I'm this size? Hmm...

[Narrator]

Emma reached down and lifted the crushed remains of her car.

[Emma]

Oh wow, so light, just like a toy! We were gonna get a new one soon anyway, ehehe. I wonder what else I can do at this size?

[Narrator]

Looking around, Emma noticed her trash bins out for collection.

[Emma] (she stomping)

Ehehe... take... this!

[Narrator]

Emma brought her foot down and crushed the bin beneath it until it was completely flat like a pancake.

[Emma]

And think how much more I could crush if I was twice as big again?

[Narrator]

Following this train of logic, Emma once again pressed the button. After this next growth, she'd be 16 times her original size.

[Emma]

m let the growth begin! *m* Ehehe, bigger and bigger! *m*

[Emma]

some more growth moans to go behind narration

[Narrator]

Emma's body once again began to grow bigger. Her growth spurts were stronger than ever, and the feeling pulsing through her body was immense. She stretched upwards, feeling her arms propelled taller and taller into the sky by her growing body. All the houses in the area were shrinking down her legs, and she could see over the entire residential area of the town. Still her body kept growing taller, raising her viewpoint even higher. The sound of her voice now carried for a mile around in most directions, and people stopped what they were doing to look at where the moans were coming from. Many were very surprised when they saw the naked growing form of Emma, growing taller by the second. Emma however was loving her growth, and was disappointed when it once again stopped.

[Emma]

Woow, I got so much taller again! My feet are like the size of cars now.

[Narrator]

With a loud thump she placed it down on the street next to a parked car to compare.

[Emma]

Yup, my feet are actually even larger than some cars, awesome! However, I am running out of things to compare my size too... hmm... maybe I should head into town to find some taller buildings.

[Narrator]

The walk into town would usually take Emma 20 minutes, but today she was in the town square in only 3 thanks to her hugely increased stride. There was some trouble trying not to step on anyone or any cars on her way.

[Emma] (trying to walk through a busy street)

Sorry! Sorry! Oop- I'm sorry! Excuse me!

[Narrator]

But Emma soon made it. People cleared out of the way quickly, more likely to get out of danger than to show kindness to the giant girl. Unfortunately, most of the buildings in the town were only two stories tall like her house, but there was one. She was still a little shorter than the church's steeple.

[Emma]

Fortunately, I can fix that easily enough.

[Narrator]

Emma said, pressing the button again.

[Emma]

m It's time to be taller *m* than the entire town! *m* Ehehe!

[Emma]

some more growth moans behind narration

[Narrator]

As Emma's body rose above the church steeple, she had indeed outgrown the whole town, but she was nowhere near done growing. Her body continued to stretch and elongate upwards,

while her feet on the ground were taking up more and more room in the town square below. During this growth though, Emma made up her mind.

[Emma]

m I've decided, I love growing! *m* I'm gonna get much much bigger *m* I'm gonna try to outgrow everything! *m*
